

REMARKS

Form PTO-1631, "Notice of Drawing Inconsistency with Specification", states that an inconsistency exists between the drawings and the Brief Description of the Drawings in the specification. In particular, the Notice states that Figure 5A is contained in the drawings but not listed in the Brief Description of the Drawings in the specification.

In response, Applicants have amended the instant specification to render the specification consistent with the drawings. In particular, Applicants propose adding a paragraph to the "Brief Description of the Drawings" section describing Figure 5A. Support for the specification amendment to this section can be found in the instant specification, for example, at page 24, lines 1-2.

Should the Patent Office deem that any further action on the part of Applicants would be desirable, the Office is invited to telephone Applicants' undersigned representative.

Respectfully submitted,

Jeffrey R. Ramberg
